

YVES FREY DIAMONDS LTD AT IJL: STAND H200

FANCY COLOUR DIAMONDS : THE STORY CONTINUES....

As jewellers know and the press informs us, there is an increasing international trend for fancy colour diamonds.

Fancy colours have always been special and unique. UK Jewellers - always in tune with international trend are well aware of the need to compete. Today's trend conscious clients want something special and unique; their demand and expectation has grown.

Yves Frey Diamonds Ltd returns to IJL to meet this growing demand and expectation with an ever exquisite selection of rare natural fancy colour diamonds and perfect matching pairs of side-stones. In addition to their selection of impressive stones in colours sizes and shapes.

Yves Frey Diamonds also offer to the trade their many years of experience of the world market.

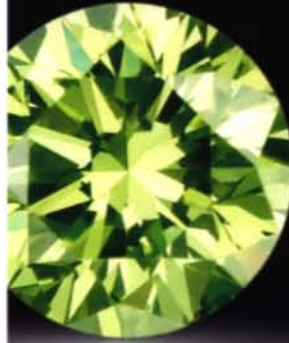

At IJL 2008, Yves Frey introduces his own design "Les Adorables", a bespoke ring offering a solution for how to present single natural fancy colour diamond rings within a flexible budget and for the greatest impact..
